

Instructors Role & Workplace

Name: Date:

Your completed questions form part of the coursework required for assessment. Please contact Training Support for details of how to submit your work.

Please tick or underline each correct answer.

1. The videos suggest that the main skills needed by an ADI can be summed up as:

- a. car handling, theory knowledge and personal skills
- b. theory knowledge, personal skills and patience
- c. theory knowledge, driving skills and personal skills
- d. theory knowledge, good eyesight, and patience

2. Instructors who are good motivators:

- a. will push learners through the course as quickly as possible
- b. will always give learners a reward for being successful
- c. will be genuinely interested in how their learner's progress
- d. are usually very strict with their learners

3. Which of the following best describes 'acting in a non-discriminatory manner'?

- a. putting learners and other road users into social categories
- b. recognising that certain character types will always be difficult to teach
- c. remaining neutral in your thoughts and comments about others
- d. always agreeing with your customer's point-of-view

4. The physical in-car environment should be:

- a. optimised for the instructor
- b. optimised for the learner
- c. a compromise between both the instructor's and learners needs
- d. the same for every lesson

5. During driving lessons hand held phones and/or internet enabled mobile devices:

- a. can never be used by the instructor
- b. can be used by the instructor when the vehicle is stationary with the handbrake applied
- c. be used when the car is parked with the engine turned off
- d. should never be used during lessons

6. The law states that in a driving school car smoking:

- a. is permitted when there are no paying customers in the car
- b. is permitted when passengers, friends or customers give their consent
- c. is not permitted at any time
- d. is permitted when driving between lessons

7. In driving school cars, displaying a no smoking sign is:

- a. specifically required by the ADI code of practice
- b. only required while teaching for payment
- c. not legally required
- d. legally required at all times

8. Most driving instructors turn slightly towards the driver when they are in the instructor's seat. This is:

- a. for comfort
- b. to enable them to be better aware of the drivers actions
- c. to reduce wear and tear of the seat
- d. to see the mirror more easily

9. In the video John Farlam calls the front nearside seat 'the instructor's seat' and suggests that the reason is that:

- a. thinking of it this way will create an appropriate mind-set for teaching
- b. it will remind you that there are dual-controls
- c. the term 'passenger seat' can be confusing because there are also rear passenger seats
- d. the learner never sits in that seat

10. In the videos Graham Lucas tells us that by holding on to the grab handle an instructor can:

- a. make the learner think that he/she is nervous
- b. create an 'extra pillar' and additional blind-spot
- c. risk getting muscular problems if the practice become habit
- d. risk damaging the handle in the event of hard braking
