

Emergency Stop Foundation Questions

Name: Date:

Your completed questions form part of the coursework required for assessment. Please contact Training Support for details of how to submit your work.

Please avoid 'short' answers of just a few words – answer the questions as fully as you can.

1. Why is a demonstration particularly useful for the emergency stop?

2. Give an example of how you could discuss 'avoiding emergency stops' during the drive to the emergency stop location.

3. What advice would you give about cars that do not have ABS fitted?

4. What safety check should you make immediately before giving the signal to stop in the emergency stop exercise?

5. What advice is given in many, if not most/all, car handbooks about using the brake and clutch in an emergency?

6. Briefly explain, as if to a learner driver, the three main causes of skids.
