

Speed & Positioning Foundation Questions

Name: Date:

Your completed questions form part of the coursework required for assessment. Please contact Training Support for details of how to submit your work.

Please avoid 'short' answers of just a few words – answer the questions as fully as you can.

1. Some learners seem to drive too fast 'naturally'. Why might this be?

2. What is the main cause of positioning problems?

3. Give an example of a method you might use to help someone with a positioning problem.

4. What are the dangers of 'weaving' in and out when negotiating a row of parked cars?

5. Briefly explain the term 'safety bubble' as if talking with a learner driver.

6. What are the Five Habits for good observation to ensure that drivers gather enough information for safe steering, speed and safety?
