

Route directions questions

Name: Date

Why is it important to give the location of a turning before giving the direction to turn left or right?

How can you help pupils to locate 'hidden' junctions.

What is the direction you would give at a crossroad where you want the pupil to take the road directly opposite and why would you give this direction?

What is the direction that you would give if there was a 'no entry' or other restricted road immediately before the road that you wanted your pupil to take?
