

For this project you simply have to write out a series of route directions.

Follow the red dotted line around the map and at each point that you consider that a direction is needed, place a number on the map and write out the direction on a separate sheet (or the back of this sheet). We have completed the first two for you - the finish point is back in the car park.

1. At the car-park gate, turn left please.
2. I would like you to take the first road to the right
